Lisa

Project Proposal

Added key statistics section:

- looked at missing values
- looked at sample sizes for different age groups and gender
- looked at Unsicherheit

Furthermore:

- Analysis plan for first research question

Data cleaning

- checked content of Region_ID and then converted to numeric
- create start and end date columns
- convert doubles to integers
- add unique row identifier

Analysis of first research question

- Analysis question according to research plan
- Create visualisations in lisa-results.qmd

Workflow

- Specified workflow in previous project proposal
- Set up Github
- Reviewed Leo's pull requests
- Contributed to group reflection
